Our Mission

An independent non-profit organization supporting excellence in education. The Evesham Education Foundation is a completely independent non-profit 501(c)(3), non-political organization that was formed to enhance and enrich the academic experience for all of the students in Evesham Township Schools.

That means 100% of the funds raised are available to enhance our children's education. Formed in 1995 by a group of concerned parents and local business leaders, Evesham Education Foundation has made positive contributions toward our children's education. To continue forward and increase our efforts, we need your support.

It is only with dedication and support that the Foundation will be able to carry out its goals and maintain the highest levels of education for the students of Evesham Township Schools.

WE SUPPORT AND FUND

- CAPPS Program
- Metamorphosis Program
- Genesis Counseling Program
- Summer Literacy Program
- Athletic Uniforms
- Scholarships
- Technology
- Science and the Arts

Programs We Support

Coordinated Arts Program for Primary Students (CAPPS)

Evesham Township School District's CAPPS is a four-week summer program for selected pre-kindergarten students. The program is designed to provide opportunities to develop social readiness and academic skills with incoming kindergarten students who have demonstrated need as determined during the spring kindergarten screening. CAPPS integrates art, music and creative dramatics with skills in literacy and mathematics. Areas of focus also include development of gross and fine motor coordination, oral language and social interaction.

The Genesis Counseling Program

Genesis Counseling Program brings student assistance counselors to the Evesham Township School District middle schools during the student's lunch periods throughout the academic year. Students have the opportunity to speak to the counselors privately or in a group setting. If a counselor feels further assistance is needed, they provide referral resources for students and their families, helping them to understand what services may be needed and how to obtain them. Having supportive services in the school as well as access to additional resources is a beneficial situation, especially since identifying a need early can prevent more serious problems later.

The Metamorphosis Program

The Metamorphosis Program is a middle school summer enrichment program designed for selected students who have just completed their sixth-grade year of middle school. The district-wide program is designed to help students to enrich their school experience as they enter into their seventh-grade year. The primary goals of the program are to enhance the social growth and development of participating students, increase communication skills, develop positive self-image, and strengthen positive peer relationships. The Metamorphosis Program meets five days a week for four weeks each summer. The program is interactive and centers on weekly themes that include various creative activities such as art, music, drama, and other related areas.
